Mr. David F. Thomas,
Proctorville, Ohio.

Dear Mr. Thomas:

We are pleased to confirm your report of reception of KNOG on 28 January 1952.

Thank you for your accurate report, and other interesting information. We hope that by now the high water has gone down, and things are back to normal again. Your letter was received yesterday.

We do not have a regular schedule for these test programs, but receive a schedule notice from the laboratory in Long Beach, California, about a week before the date set. It is always a Monday morning, 2:00 to 2:15 A.M. M.S.T, though, and usually the last or next to last Monday of the month.

Sincerely,

Roland R. Wiseman
